

The screenshot displays the ProductNet software interface. On the left, there's a sidebar with options like '1. Select article no on below suitable' and '2. Generate Catalog'. The main area contains a form for entering product details. Fields include Product ID (53), Article No. (abcde), Project Group (nylon), Item Group (luggage set), Collection (back to school), Brand Name (traveller), Standard (Euro), Packaging (carton boxes), Size Range (58 inch x 20 inch x 88 inch), Dimension (depends on the set), Description (travel suit case set), Origin (china), and several Remark fields. A 'Contents / Ingredients' section lists materials: 100% nylon, 10% PVC, 10% PU, and 5% Elastic. A 'Technical Specifications' section lists features like Zipper 35" metal, Plastic handle, bearing roller wheel, nylon stand bottom, leather patch embossed, and puller hand rail. On the right, there are image placeholders for 'Main Image' and '1st Image', both showing a red suitcase. At the bottom, a table shows packing details: Individual Pack, Height 67, Length 91, Width 87, Unit IN, Net Wt 18, Gr. Wt 9, Unit KG, and Total Qty.

## ProductNet
